Dear Fellow Professional :

Please consider this special invitation to attend our regular monthly meeting on Thursday, October 16, 2014 from 6:00 to 8:00 PM.

John M Kramer PE is Assistant Director of Engineering, Research Division, at Duke University Medical Center. He graduated BSME with honors from University of Virginia in 1982. His work experience includes 8 years in Building Automation System Design, programming and commissioning; 6 years as the owner of a firm engaging in Engineering (MEP) Consulting; and 16 years at Duke University Medical Center in the Engineering and Operations Department. John lives in Durham, NC.

In January 2014, the Duke University Medical Center Engineering and Operations Research Division, led by John M. Kramer PE, began a campaign to reduce energy consumption on campus. The goal was to achieve an annual savings of \$2.5 Million. To date, the savings have exceeded \$2.0 Million, well on the way to the goal. The effort was a multi-pronged approach to reducing steam, water, chilled water and electrical consumption through adjustments to HVAC, lighting and other physical plant components..
